

How to Use Your Scraps

If you are making quilts, you are also producing scraps! You can use those scraps to make more quilts that are essentially free! Join us Thursday, October 23rd to talk about how to cut our scraps into useable sizes and how to store them so they actually get used. Bring your sewing machine and sewing supplies (and of course, your scraps!), and we will make a quilt that is fun and easy.

If you want to do some pre-work, cut plenty of 2-1/2" x 4-1/2" rectangles. Make sure to have some variation between light and dark. I have a booklet with over 30 patterns using these rectangles. Bring \$5.00 to cover the printing cost if you want one!
